

1. Executive Analysis: How Leads Jumped from 90 to 128 / 130

KEY FINDINGS & ROOT CAUSE:

- Earlier today at 12:23 PM, only 3 leads had "Installed" status and 96 had "Closed" (Total: 99, with 90 Dues).
- During today afternoon, staff/system synchronized 29 completed sites from "Confirmed" to "Installed" status.
- An additional 13 leads completed closure and were moved to "Closed" status.
- Because the banner tracks Completed Installations (Installed + Closed), adding these 42 sites automatically increased the Process Done leads with dues from 90 to 128 (currently 130), and remaining dues increased from Rs. 45.12L to Rs. 80.78L.

2. Comparison: Morning (12:23 PM) vs. Afternoon (05:12 PM)

Parameter	Morning (12:23 PM)	Afternoon (05:12 PM)	Net Difference

CONCLUSION: PIPELINE ADVANCEMENT ACCURACY VERIFIED

- 1. The jump from 90 to 128 (now 130) is NOT a system error. It is a genuine and positive operational progress update.
- 2. These 29 sites were physically installed and their pending dues (Rs. 32.5+ Lakhs) moved from Confirmed to Completed.
- 3. This directly answers your earlier remark that market dues should be higher: as teams update installed sites, the Completed Installations pending balance accurately reflects the true collectable market reality (Rs. 80.78 Lakhs).
